Payment for Order Flow

A payment for order flow is the compensation and benefit a brokerage receives by directing orders to different parties to be executed. The brokerage firm receives a small payment, usually a penny per share, as compensation for directing the order to the different parties. IES does not engage in any payment for order flow. BUSINESS CONTINUITY PLANNING

Our business continuity planning ("BCP") first ensures the safety and security of our associates. The events of 9/11 emphasized the unique skill sets of personnel who work in our industry and the need to put their safety first so that after an interruption they are available to continue serving our customers. In addition to protecting our personnel, our BCP and daily operations are focused on preserving our critical firm and customer data through daily backups which are moved off-site via electronic copies of our data to our remote locations.

JSK and IES have developed a Business Continuity Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us

If after a significant business disruption you cannot contact our office, as you usually do at (800) 259-7130, please contact us at our alternative numbers (914) 420-4562 or (845) 216-6854. If you cannot access us through either of those means, you should contact our clearing firm, Hilltop securities Inc. (HTS) at (214)859-1800 and at <https://clientexp.htst.com/ies/Login> for prompt access to your account.

Highlights of Our Business Continuity Plan

We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our associates and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data back-up and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, associates, and regulators; alternate physical location of associates; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

Our clearing firm, HTS, backs-up our important records in a geographically separate area. While every emergency situation poses unique problems based on external factors, such as time of day and the severity of the disruption, we have been advised by our clearing firm that its objective is to restore its own operations and be able to complete existing transactions and accept new transactions and payments within four hours. Your orders and requests for funds and securities may be delayed during this period.

Varying Disruptions

Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within two hours.

In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area, and recover and resume business within four hours. In either situation, we plan to continue in business and transfer operations to our clearing firm if necessary. We will notify you through our customer emergency numbers, (914) 420-4562 and (845) 216-6854, and give you information regarding how to contact us. If the significant business disruption is so severe that it prevents us from remaining in business, we will assure our customer's prompt access to their funds and securities via direct access to Hilltop securities.
